

EuraPra[®] / Wonpro2 Feature Summary

**Next Gen 20 Amp Plug Adapter – True Amperage Pipeline, Unbreakable, Inflammable!
One and Only IEC 60884-2-5 Complied !! Can Pump Up To 20 Amp.Old “Wonproadapters can only pump 6 Amp**

The following is how our Thailand distributor Toshino describes our Next Gen EAS adapters:

- Unbreakable – slam our adapter against the concrete, the concrete broke, our adapter is intact
- True Amperage – we can support 16 Amp, 220 volt, which is required by their Type B “US” adapter

EuraPra / Wonpro II NextGen Adapter Feature Summary - The New Revolution

1. 5 Year Warranty

Repeatedly Use Hammer to Break Adapter is Not Covered – The Only Way to Break It!

2. Highest Quality Adapter Ever Produced

Unbreakable – Can Take Hammer Blows

Inflammable – PC V1 Flaming Rating

Supersonic Welding to Seal All Plastic Parts, No More “Plastic Locks

EA – 5 Seconds: Small Black Mark. 60 Seconds: Small Damage at Direct Contact with Fire

WA – 5 Seconds: Caught Fire. 60 Seconds: Entire Adapter Melt and Burned to Ash

3. True Amperage Pipeline

Rivet Every Metal Connection Point, No More “Press On” Loose Connections

Can Pump Up To 20 Amp, not just 6 Amp – as for All “Wonpro Generic” Adapters

One and Only IEC 60884-2-5 Complied Adapter

4. Patented German/Schuko Grounding

Most Europe Uses 230V 16Amp Schuko Outlets – Need Grounding!

Does Not Block Any Plug, Truly Universal

5. Patented “Slide-In” Safety Shutters – Protect Child/Adult Against Deadly 230V Shocks
Cut Adapter Size by Half – Compared to the old “Slide-Out” WAS adapters
No Single Pole Can’t Open Any Power Socket. No Half Open Stuck Safety Shutters

6. Three 20 Years Innovation Patents

Innovation Patents Require True Technology Breakthroughs
 It takes Two Years to Go Through Very Vigorous Patent Office Exams!

7. Focus on Safety

Some plug types including EA-9 do not truly require the extra Schuko ground metal
 It is there for additional protection – if you get shocked the Schuko ground metal is there to save you.

8. Breaking News – BOSE’s Official Supplier!!

Annual Quantity: Starts with 50,000 Units of EAS-320 (and other universal products later)

9. Polarized “US Flat-End” Plug – Solved this 30 years old very annoying problem.

All US plugs now can easily be inserted into EAS plug adapter (except the first production)..

First Production Only: “US Flat-End” Plug Inserts into Safety Shutters at 45 Degree
